Document Type Quality Manual	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 1 of 1
Document Code: QM 4-05	TECHNICAL RECORDS		

Introduction

This document provides the principles for technical records for all activities of BFAR RFLD XII according to the requirements of the sub clause 7.5 of the PNS ISO/IEC 17025:2017 standard.

1. Technical Records

BFAR RFLD XII ensures that technical records for each laboratory activity contain the results, report and sufficient information to facilitate, if possible, identification of factors affecting the measurement result and its associated measurement uncertainty and enable the repetition of the laboratory activity under conditions as close as possible to the original. The technical records include the date and the identity of personnel responsible for each laboratory activity and for checking data and results. Original observations, data and calculations are recorded at the time they are made and are identifiable with the specific task.

2. Amendments to Technical Records

BFAR RFLD XII ensures that amendments to technical records can be tracked to previous versions or to original observations. Both the original and amended data and files are retained, including the date of alteration, an indication of the altered aspects and the personnel responsible for the alterations.

3. Documents

SOP-14, Control of Records

4. Document History

Revision No.	Issue Date	Original Entry	Revised as	Recall Date
