

Document Type Quality Manual	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 1 of 2
Document Code: QM 4-01	REVIEW OF REQUESTS, TENDERS, CONTRACTS		

Introduction

This document describes the principles of review of requests, tenders and contracts according to the requirements of sub clause 7.1 of the PNS ISO/IEC 17025:2017 standard.

1. Review of Requests, Tenders and Contracts

The review of service requests includes a series of processes for identifying the technical and time requirements of the customer and to examine if they are met by the technical capabilities of the laboratories. A general procedure of the quality management system provides the mechanisms and the specifications for the review of requests, tenders and contracts.

2. Cooperation with the Customers

BFAR RFLD XII cooperates with customers or their representatives in clarifying the customer's request and in monitoring the laboratory's performance in relation to the work performed.

Such cooperation can include:

- a) providing reasonable access to relevant areas of the laboratory to witness customer-specific laboratory activities
- b) preparation, packaging and dispatch of items needed by the customer for verification purposes.
- c) information and assistance with respect to:
 1. Schedule for sample submission
 2. Sample requirements
 3. Instructions for handling the sample
 4. Explanations for terms and conditions of the offer
 5. Information related to the status of the analysis
 6. Interpretation of the test results
 7. Handling any complaints or problems related to laboratory activities.
