Document Type Quality Manual	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 1 of 1
Document Code: QM 4-06	EVALUATION OF MEASUREMENT UNCERTAINTY		

Introduction

This document provides the principles for technical records for all activities of BFAR RFLD XII according to the requirements of the sub clause 7.6 of the PNS ISO/IEC 17025:2017 standard.

1. Contributions to Measurement Uncertainty

The BFAR RFLD XII identifies the contributions to measurement uncertainty. When evaluating the measurement uncertainty, all contributions that are of significance are taken into account using appropriate methods of analysis.

2. Measurement Uncertainty of Testing

The BFAR RFLD XII evaluates measurement uncertainty for all testing performed. Where the test method precludes rigorous evaluation of measurement uncertainty, estimation is made based on an understanding of the theoretical principles or practical experience of the performance of the method.

3. Documents

WI-02, Evaluation of Measurement Uncertainty

WI-02-CHE-01, Estimation of Measurement Uncertainty in Chemistry

WI-02-MIC-01, Estimation of Measurement Uncertainty in Microbiological Tests

4. Document History
