Document Code: QM 4-08	CONTROL OF NON CONFORMITIES		

Introduction

This document provides the principles for handling and controlling non-conformities according to the requirements of sub clause 7.10 of the PNS ISO/IEC 17025:2017 standard.

1. Handling of Non-Conformities

Non-conformities identified in any of the areas of implementation of the quality management system are handled according to specified procedures and processes. Handling of non-conformities includes:

- Recording in the specified forms and protocols of the quality management system
- Cause analysis to identify the source of the problems
- Assignment of immediate actions to resolve the problems
- Assignment of corrective and/or preventive actions, if necessary
- Implementation of all specified actions

Handling of non-conformities includes follow up and control of implementation. In this respect BFAR-RFLD XII makes use of the proper procedures and means to fully control the handling of non-conformities.
