Introduction

This document provides the principles of document control of the quality management system according to the requirements of the sub clause 8.3 of the PNS ISO/IEC 17025:2017 standard.

1. Application of Document Control

All the documents of the quality management system (quality manual, SOP and WI procedures, instructions, forms, and laboratory documents) are controlled with respect to:

- The identification of documents
- The issue and approval
- The distribution
- The availability at points of use
- The modification
- The withdrawal and obsolescence
- The review of documents

The application of document control is carried out by the respective Standard Operating procedure of the quality management system, which provides the necessary mechanisms.

2. Responsibilities

The responsibilities and the involved personnel are described and specified within the respective standard operation procedure for document control.
