Document Code: QM 5-03	CONTROL OF RECORDS		

Introduction

This document provides the principles for the control of the records of the quality management system according to the requirements of the sub clause 8.4 of the PNS ISO/IEC 17025:2017 standard.

2. Elements of Control of Records

The records provide the evidence for the implementation of the quality management system and the main source of information related to the performance of the quality management system, the test results and the services. The control of records consists of:

- Identification of records
- Retention for a specific period
- Protection against any risk of damage
- Place of storage and access by the authorized staff
- Responsibilities and organization

Records resulting from the implementation of the quality management system are in both printed and electronic form. BFAR-RFLD XII applies and makes use of the necessary procedures and means to assure secure and efficient use of the quality records.
