Document Type Standard Operating Procedure	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 1 of 5
Document Code: SOP-08	REPORTING OF TEST RESULTS		

Introduction

This procedure prescribes the way of issue, characteristics and content of report of tests issued by RFL XII.

1. Responsibilities

1. Laboratory Manager
2. Quality Assurance Manager
3. Technical Manager
4. Customer Service Officer
5. Laboratory Analyst

2. General

2.1. The laboratory presents the results of every analysis that it carries out in the form of a report of test which is presented in a standard format, accurately, unambiguously and objectively.

3. Approved Signatories

3.1. The approved signatories of the laboratory are personnel authorized by Laboratory Manager to sign reports of test and bear responsibility for the content of the report issued by the Laboratory.

3.2. Positions and original signatures for each Laboratory' approved signatories is presented in LF 01-05, List of Authorized Personnel.

4. Report of Test content

4.1. Every report of test (LF 08-01-XX, where XX is the code for the analysis) includes at least the following information:

Document Type Standard Operating Procedure	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 2 of 5
Document Code: SOP-08	REPORTING OF TEST RESULTS		

- Heading “Report of Test”
- Logo of BFAR
- Name and address of the laboratory
- Unique report of test identification number (serial number), uniquely relating the report with the test item, shown every page of the report of test. Identification number is in the form:

BFAR12-XXX-XX-YYY

where XX is the last two digit of the year;

YYY is the number of the report for the year;

XXX is the first three letters of the laboratory unit: CHE-Chemistry Laboratory, MIC-Microbiology Laboratory and FIS-Fish Health Laboratory, etc.

- Page number, in the form “page χ of y ”, printed on every page of the report of test
- Date of issue
- Customer’s name and address
- Description of, the condition of, and unambiguous identification of the sample analysed (sample code, sample type, etc.)
- Environmental conditions under which test was carried out
- Identification of the test method used, including possible deviations, additions, exclusions from standard etc., when necessary
- Date of receipt of the test item and the date(s) of performance of the test
- Test results with appropriate units of measurement
- Name(s), function(s) and signature(s) or equivalent identification of person(s) authorizing the report of test
- Uncertainty of measurement and / or a statement of compliance with the requirement, if applicable
- Every other available information required by the customer, relevant to the validity or applicability of the measurement results, if necessary

Document Type Standard Operating Procedure	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 3 of 5
Document Code: SOP-08	REPORTING OF TEST RESULTS		

- A statement that test results pertain only to the item tested
- A statement that the results apply to the samples as received
- A statement that the report of test shall not be reproduced except in full, without written approval by the laboratory
- A clear identification of the end of the report of test

5. Other issues

5.1. When a statement of compliance with a particular specification is provided, the uncertainty of test is taken into account for verifying compliance.

5.2. Report of tests is compiled in an unambiguous language and is thoroughly checked to avoid mistakes before signed by the approved signatory.

5.3. The report of test issued by the laboratory shall not contain any advises or recommendations stemming by the test results, unless the customer requests.

5.4. If there are amendments to report of test (ex.: date, source of sample, quantity), the customer will send a letter for the modification and fill out the Action Slip, LF 06-05, for approval of the laboratory manager.

6. Re-issue of Report of Tests

6.1. Frequently the laboratory must issue a new report of test for the following indicative reasons:

- the customer requested through an LF 06-05, Action Slip
- additional tests must be performed
- mistakes have occurred, which must be eliminated either through, or without carrying out new tests etc.

6.2. In such instances, a complete new report of test - with a new report of test number (BFAR12-XXX-YY-ZZZ-A1 where XXX is the laboratory unit, YY is the year, ZZZ is the report of test code and A1, A2, A3... for amendments) and date of issuance - is issued, after the approval

of Laboratory Manager.

6.3. The new report of test shall contain a reference to the original that it replaces. The Report of Test includes a statement "Amendment to the Report of Test No.: BFAR12-XXX-YY-ZZZ" and a statement on what changes were made.

6.4. The customer is requested to return the old report of test and marked as invalid and filed together with the new issued duplicate copy of report of test.

7. Assuring Report of Test's validity

7.1. If circumstances arise, before or during a test, which may adversely affect the accuracy, validity and overall credibility of the tests, the Laboratory Analyst and/or Technical Manager may cancel the test and refuse issuing a report of test.

8. Submitting results to the customer

8.1. Report of Test are sent to the customer through the mail, or picked up by the customer at RFL XII's premises.

8.2. If the customer requires that test results be transmitted by e-mail or other electronic means, transmission is possible; under the conditions that information is securely transmitted only to the intended recipient such as stating that the email contains confidential information.

8.3. No preliminary results are reported to the customer.

8.4. Request for Laboratory Analysis, Order of Payment and official receipt shall be presented by the customer upon releasing of the Report of Test. The official receipt shall be photocopied by the Customer Service Officer and kept as file.

9. Reporting, Reviewing, Authorization of Results

9.1. The analysts of the designated unit report the results using the LF 06-04, Job Routing Form.

9.2. The Document Control Officer reviews if the right entries are encoded in the Report of Test, LF 08-01-XX. The Quality Assurance Manager also checks the entries in the Report of Test and Job Routing Form.

9.3. The Report of Test is signed by the analyst who conducted the analysis, certified by the Quality Assurance Manager and approved by the Laboratory Manager.
