Document Type Standard Operating Procedure	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 1 of 4
Document Code: SOP-16	IMPROVEMENTS		

Introduction

This procedure describes handling of improvement actions, which are undertaken according to the requirements of the par.8.6 of the PNS ISO/IEC 17025:2017 standard.

1. Responsibilities and Authorities

1. Regional Director
2. Laboratory Manager
3. Quality Assurance Manager
4. Technical Manager
5. Staff

2. Monitoring and measurement

2.1. Determination of fields to be improved on basis of risk analysis:

- 2.1.1 Quality Assurance Manager performs at least once a year determination of risk level on the basis of data collected, from complaints, internal audit findings, non-conformities, Proficiency Testing Results or inter-comparisons results and external review findings. Specify saan ginagawa at sinasama. Also check quality objectives and plan for improvement and monitoring of quality objectives

Quality Assurance Manager performs at least once a year determination of fields for improvement on the basis of data collected from complaints, internal audit findings, non-conformities, Proficiency Testing Results or inter-comparisons results, external review findings and LF 15-01, Risks and Opportunities Register.

Potential risks can be determined through SWOT analysis (LF 15-03, SWOT Analysis Register).

Fields with high-risk scores, inadequate current controls and high frequency of incidents can be identified as for improvement.

2.1.2. Analysis of Customer Satisfaction Survey, LF 16-01 as feedback at the below table is considered a risk of probability for not detecting deviations or gaps in defined, in the rows fields of QMS. The feedbacks will be used for continual improvement.

Courtesy, helpfulness and promptness of the attending staff					
Information and technical knowledge of attending staff					
Forms are easy to understand					
Issuance of Report of Test					
Test report easily understood					
Over-all service/s provided by this laboratory					

3. Determination and Implementation of Improvement

3.1. The Quality Assurance Manager will inform regularly the Laboratory Manager for determined results in the fields of concern and within defined suitable Corrective Action. Other outcomes i.e. (minutes of meetings and reports) relating quality issues may initiate drafting suitable CA from Quality Assurance Manager in order to initiate improvements.

CA are undertaken to improve quality system and aim the sustainability of the QMS.

3.2. Continuous improvement must be ensured through regularly reviewing risk registry and reassessing risks periodically.

4. Handling of Customer Complaints

4.1. Types of Customers Complaints

Any expression by the customer, written or oral, of problems related to his co-operation with BFAR RFL XII constitutes a complaint. Typical types of complaints are as follows:

1. Deviations from the terms and conditions of the contract/offer (i.e. delays of service delivery, extra costs not included in the offered service)
2. Lack of appropriate servicing, information and assistance

4.2. Procedures

4.2.1. Receive complaint form, LF 16-03. The form can be filled out by the customer in the receiving area. The Laboratory Manager and Quality Assurance Manager evaluates if the complaint is valid or not. Provide initial feedback to the customer.

Complaints are considered as valid if:

- Deviations from the terms and conditions of the contract/offer (i.e. delays of service delivery, extra costs not included in the offered service);
- Lack of appropriate servicing, information and assistance, and;
- Affects the analysis and turn-around time.

- 4.2.2. The Laboratory Manager arranges a meeting with the staff to collect information and conduct investigation, to discuss the customer complaints and to identify possible root cause of non-conformance or non-compliance using the LF 10-01.
- 4.2.3. Propose and implement agreed corrective actions with timelines, in accordance with SOP-17, Corrective Actions and SOP-15, Risk and Opportunities.
- 4.2.4. Record all actions taken in the complaint form.
- 4.2.5. Clear/ close case complaint with customer. A letter or e-mail will be sent to the customer regarding the resolved complaint. (LF 16-04, Letter of Resolved Complaints)
- 4.2.6. Keep and maintain records.

4.3. Control of Implementation

- 4.1. Responsible for the control of the implementation of all actions specified in the procedure is the Quality Assurance Manager.
- 4.2. It is noted that throughout the implementation of all assigned actions, the Complaint Form (LF 16-04) remains with the responsible staff for implementation. As soon as the actions are completed, the complaint form is returned to the Quality Assurance Manager, who examines and files the form.
