

Document Type Standard Operating Procedure	Revision No: 0	Date Adopted: 13 Aug 2019	Page No: Page 1 of 3
Document Code: SOP-17	CORRECTIVE ACTIONS		

Introduction

This procedure describes handling of corrective actions, which are undertaken according to the requirements of the sub clause 8.7 of the PNS ISO/IEC 17025:2017 standard.

1. Responsibilities and Authorities

1. Laboratory Manager
2. Quality Assurance Manager
3. Technical Manager
4. Staff

2. Areas of Application

- 2.1. Corrective actions are undertaken to resolve non-conformities, which appear in the following operations of the quality system:
 1. Handling of complaints of customer according to SOP-16.
 2. Control and Handling of non-conformities in everyday operation of BFAR RFL XII according to SOP-10.
 3. Internal Audits of the quality system according to SOP-18, etc.
- 2.2. In addition, corrective actions may be one of the results of management reviews according to SOP-19.

3. Determination of Corrective Actions and Follow-up of Implementation

3.1. Assignment and recording of corrective actions take place in the respective forms and the documents of the general procedures (i.e. LF 16-03, Complaint Form, LF 10-01, Non-Conformity Form, the Form of Corrective Actions is integrated in LF 18-03, Form of Audits Questionnaire)

3.2. Corrective actions:

1. Are determined by the Quality Assurance Manager or by the auditors (in cases of Internal Audits) after examining proposals of the involved staff.
2. Should be realistic and effective, in order to be successfully implemented and to resolve the main source of the problems of non-conformities. In this respect, corrective actions are only undertaken if deemed necessary after careful cause analysis.

Document Code: SOP-17	CORRECTIVE ACTIONS		

3. Are implemented by the designated staff, referred in the respective forms and documents.

4. Are completed, if possible, within specified time limits.

3.3. Follow up of implementation of corrective actions is carried out under the responsibility of the Quality Assurance Manager, who makes use of additional documents and tools. In addition, the progress of the corrective action implementation is examined among others during routine management reviews. It is the responsibility of the Quality Assurance Manager to inform and to communicate with all the designated staff, who are responsible for the implementation and completion of all respective corrective actions.

3.4. Control of implementation of corrective actions is carried out under the responsibility of the Quality Assurance Manager. An overall evaluation of the degree and the efficiency of the corrective action implementation takes place during the annual management review.

4. Typical Corrective Actions

4.1. Typical corrective actions, depending upon the nature of the respective non-conformities, may be as follows:

1. Issue of new procedures and documents and/or modification of existing ones.
2. Training of staff and improvement of internal communication mechanisms.
3. Upgrading of equipment and modification of the operation flow in BFAR RFL.
4. Practical measures in the Laboratory.
5. Communication with customers and suppliers and/or modifications of terms and conditions of co-operation.

5. Forms

LF 16-01, Complaint Form

LF 10-01, Non-Conformity Form

LF 18-03, Audit Questionnaire Form
